

THE 21ST CC PROJECT DEVELOPES A WEB APP FOR COACHING

21ST CC PROJECT CREATES A WEB APP FOCUSING ON THE 21 ST-CENTURY COMPETENCIES.

The 21st Century Coaching Project prepares company coaches for their changed role in work-based learning from VET students.

In this line, a web app is being developing.

The app makes users able to easily and quickly **create agreements** connected to the **work-based learning internships** and international **mobility programs**.

Coaches need a tool to follow the competencies development from the students.

These web app in an e-form-like app gives flexible opportunities to users to define the needed elements they want or need to **include in their agreements**, focusing on the 21 st-century competencies.

For coaches is important to have easy access to information about:

- their **ideal set of competencies**,
- how to **realize** it and
- to get **recognized** by the VET school involved.

21 CC

The aim of 21st Century Coaching Project is to prepare company coaches for their changed role in work-based learning from VET students.

This project has been funded with support from the European Commission Erasmus+ KA220 Strategic Partnership Projects Number 2021-2-HU01-KA220-VET-000049510 and will be develop from May, 2022 till May,2024.

For more information on the project you can visit the following website or sign up for a newsletter with your email address.

Thank you very much!

PREPARING COMPANY COACHES FOR THEIR CHANGED ROLE IN WORK-BASED LEARNING

The app creates agreements connected to the work-based learning internships and international mobility programs.

STATE OF THE PROJECT

Once the project has developed the following project results (more details can be consulted

<https://www.21cc-project.eu/en/results/>):

1. Inventory and analysis of 21st century competences for company coaches.
2. Personal action plan for 21st century coaches.

In this phase of the project, the consortium is working on:

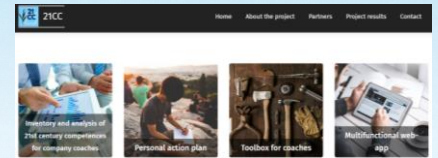

3. Toolbox for coaches.
4. Multifunctional web-app.

The Toolbox for coaches is a set of training curriculum and materials to train the future's company coaches.

The Toolbox covers the organisational, the personal learning aims and focus on the feedback culture of the coaches.

The Toolbox aims are:

1. What makes a company a good internship workplace for 21st-century VET student?
2. How can an educator/trainer become a company coach?
3. Feedback to improve!

During the project meeting 4 hold in Valladolid during October 2023...

...the agreements needed by supervisors/coaches in the 21st century workplace were discussed by the partners.
